

HOW TO MAKE PAPER BEADS & BRACELETS

MATERIALS

You will need...

1. Strips of paper
1" wide or thinner)
2. A glue stick
3. A pencil or some other
dowel-shaped item
4. Some kind of string or
yarn (not pictured)

1

Curl just the end of a strip of paper around a pencil

2

Apply glue generously to the rest of the strip of paper

3

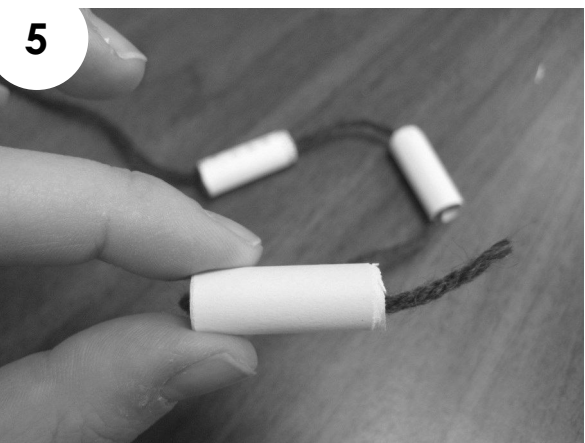

Continue rolling the paper; make sure the end is securely glued.

4

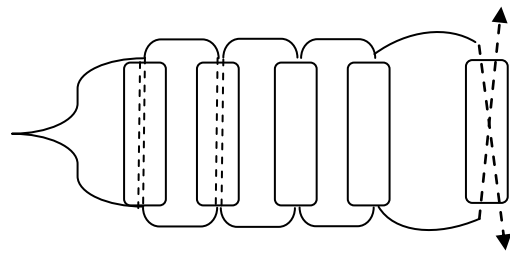

Color your bead if you wish; find creative ways to decorate.

5

String beads onto available string.

Once you have made a number of paper beads, experiment with different beading designs such as the diagram above.

Try cutting some of your beads in half to make smaller tubes for some variation or use different colored markers to add a little bit of personalization. Have fun!
